Jim,

See the bottom of page 7 wherein His Highness Judge Smith stated he thought he was following the lead of the government; meaning that he originally dismissed my indictment and wrote a ruling protecting the FBI agent from charges of perjury for the lies he wrote in the search affidavit. The govt. took an appeal on his ruling which was overturned and this pissed him off. He didn't suppress the search warrant because he thought I was a nice guy. He dismissed the charges to protect the FBI agent.
